Subject: Emerging Contaminants and Emerging Health Issues for Secretaries meeting
Attachments: Emerging Contaminants and Emerging Health Issues.docx

Jon,

Attached are the detailed talking points for the State Secretary's meeting. We can take this version and cut it down if you would like to give a more abbreviated summary as a hand out. We did not include anything on other unregulated contaminants other than PFCs and HAB/cyanotoxins. We can add some blurbs on a few other unregulateds of note like strontium and chlorate.

Let us know if you want anything else added (or subtracted).

Rick
